# Muhhamad Syauqi Jannatan

Jakarta, Indonesia | +62 85159933535 | syauqijannatan@gmail.com | LinkedIn | Github | Portfolio

## EDUCATION

**Bandung Institute of Technology**    **Bandung, Indonesia**
*Bachelor of Engineering - Informatics Engineering*    **Aug 2021 – Oct 2025**
- Related Coursework: Software Engineering, Software Project, Web based Application Development, Platform-based Application Development, Algorithms & Data Structures, Object Oriented Programming, Human Computer Interaction

## EXPERIENCES AND ORGANIZATIONS

**SLB**    **Jakarta, Indonesia**
*Full Stack Developer Intern*    **Oct 2024 – Oct 2025**
- Collaborated with a multifunctional team to design client-specific solutions, starting from wireframes and prototypes to improved UI/UX designs.
- Implemented designs into responsive and dynamic front-end applications, ensuring seamless usability and accessibility.
- Successfully migrated an existing project to the latest tech stack, resulting in improved performance, maintainability, and enhanced user experience.
- Refactored API structure into centralized global service for cleaner integration and scalability.

**PT.Phincon**    **Jakarta, Indonesia**
*Full Stack Developer Intern*    **Jul 2024 – Sep 2024**
- Developed applications for MyTelkomsel MicroServices and APIs, enhancing functionality and integration.
- Implemented visual and interactive elements for web applications, ensuring an engaging user experience.
- Designed and developed functional, user-friendly web and mobile applications with a focus on usability.

**Ganesha Film Festival**    **Bandung, Indonesia**
*Head of Web Developer*    **Aug 2023 – Mar 2024**
- Led a team of three developers to design, build, and maintain the official festival website as the primary information hub.
- Developed a web application that provides information about a film festival held by Liga Film Mahasiswa ITB, showcasing information about Ganesha Film Festival, including a form for participants to submit their films.

**IEEE ITB Student Branch**    **Bandung. Indonesia**
*Creative Staff*    **Sep 2023 – May 2024**
- Collaborate closely with other divisions to assist with the organization's creative needs.
- Edited several photos and videos such as profile company, after movie, virtual background, etc.

## PROJECTS

**Seno Medika Administration Clinic** | **Full Stack Developer**    **Jun 2024**
- Developed a web application for clinic administration, utilizing Agile Methodology in collaboration with a team of seven people.
- Tech Stack: PostgreSQL, Golang, TypeScript, Tailwind CSS, Docker

**Bondoman** | **Frontend Developer**    **Mar 2024**
- Developed an android mobile application that focuses on financial management, includes user authentication, broadcast receiver functionality, background services, network sensing, and intent handling.
- Tech Stack: Kotlin, SQLite

**Ganffest** | **Full Stack Developer**    **Nov 2023**
- Developed a web application showcasing information about Ganesha Film Festival and allows participants to submit their films.
- Tech Stack: TypeScript, JavaScript, Tailwind CSS, Next.js, MySQL

## ADDITIONAL INFORMATION

- **Technical Skills:** JavaScript, TypeScript, Next.js, React.js, Angular js, HTML5, CSS, Python, C#, C++, C, Java, PHP, Express.js, Tailwind, SOAP, MySQL, MariaDB, SQLite, PostgreSQL
- **Tools:** Git, Docker, Visual Studio Code, Visual Studio, Intellij IDEA, Jupyter Notebook, Figma, Google Workspace
